CLERK: Mr. President, motion on the desk. Senator Stoney offers an amendment to LB 115. Read amendment. (See pages 461 and 462, Journal.)

SPEAKER LUEDTKE: The Chair recognizes Senator Stoney.

SENATOR STONEY: Mr. President, members of the Legislature, after LB 115 advanced last Wednesday, the bill drafter brought to my attention that there is some inconsistency in the statute with reference to ages. LB 115 indicated that an individual had to be twenty years of age to donate either his or her body or any part. When Senator Swigart had, I believe, LB 49 earlier this session to reduce the age for getting blood from nineteen to seventeen, in that particular statute, 4808, the birth or rather the age is nineteen. So to place LB 115 in harmony with what is included in the statutes in 4808, we are asking that the age twenty be stricken and reduced to nineteen. It is just so that it will harmonize the statutes.
